

**L Band DAB/DVB-H Colinear Antennas VO Series****Product Description**

Rugged long life, high performance gain antenna. Field proven, world-wide, in many environments.

**Features/Benefits**

- Omnidirectional
- Fibreglass Radome enclosed - reduces precipitation static
- No assembly or tuning required
- Grounded driven element for lightning protection
- Rugged construction, lightweight design

For detailed technical information use the external document link below.

**Technical Specifications**

Product Line	Antenna DAB/DVB-H
Product Type	L Band DAB/DVB-H Colinear Antennas
Frequency Range, MHz	1427 - 1535
Polarization	Vertical
